InfoTrust Group Acquires Data Dimensions Inc.

IRVINE, CA – December 12, 2007 – InfoTrust Group (formerly Jouve Data Management), the leading provider of fully integrated, comprehensive information management solutions, announced today the signing of an agreement for the acquisition of Data Dimensions Inc. (DDI), a technical documentation services company headquartered in Phoenix, Arizona, with an additional office in Austin, Texas.

"This acquisition represents an exciting expansion of InfoTrust Group's engineering services practice and an excellent complement to the technical document solutions that have long been InfoTrust Group's core competency," stated Geoffrey Godet, InfoTrust Group CEO.

Data Dimensions manages a broad spectrum of technical documentation projects for manufacturers in the commercial and aerospace markets. Current major customers include Honeywell Industries and Applied Materials, Inc. The company was started in 1994 by Dave Cameron and Linda Fischer and has a core staff of approximately 70.

InfoTrust Group (ITG) established its Engineering Services division in February 2005 and it has proven to be one of the largest and fastest growing business units within the organization. Primarily servicing the aerospace industry, the Engineering Services team, headed by Vice President Brian Morse, provides complete outsourcing of technical publications, maintenance programs and engineering support services.

Geoffrey Godet will serve as chief executive officer of DDI. Linda Fischer and Dave Cameron will serve as vice presidents, reporting to Brian Morse.

"Linda and I recognized the strategic benefits of teaming DDI's technical knowledge and engineering support expertise with ITG's state-of-the-art content management technologies," commented Dave Cameron, DDI co-founder.

ABOUT INFOTRUST GROUP

InfoTrust Group's business strategy and vision are focused on one common goal -- *to be the most customer oriented provider of leading application technologies and services for publishing and content management needs*. InfoTrust Group offers optimum customer satisfaction through a global support network of seven locations across the U.S., Europe and Asia to ensure your success by maintaining 24/7 customer service and support. We deliver powerful documentation solutions to over 100 companies in the following industries: Aerospace, Defense, Manufacturing, Automotive, High-Tech, Publishing and Health Care.

InfoTrust Group (formerly Jouve Aviation Solutions) has been a key player in the information processing industry for more than 25 years. Today, our unique global approach is based on an in-depth knowledge of content and data. We offer complete solutions for all information processing, conversion, authoring, content and change management, publishing and distribution objectives. InfoTrust Group provides leading expertise in technologies such as XML, e-commerce, Java, and object and relational storage as well as experienced consulting, program management, systems integration, software engineering and solutions development services. InfoTrust Group's wide range of end-to-end solutions offer a strong ROI by providing electronic content management solutions that increase productivity by taking advantage of XML capabilities and content reuse, and that produce more accurate and reliable information for compliancy. Our products and services are designed to function in concert with each customer's individual needs and requirements to help manage your structured and unstructured information into useful knowledge.
